

**REMARKS**

Claims 1, 2, 5, 6 and 7 are pending in the application. Claims 1 and 5 have been amended and claims 3-4 and 8-10 have been canceled without prejudice by way of the present amendment. Reconsideration is respectfully requested.

In the outstanding Office Action, claim 1 has been objected to due to informalities; claim 3-4 were rejected under 35 U.S.C. Section 103(a) as being unpatentable over U.S. Patent No. 5,381,387 (Blonder et al.) in view of U.S. Patent No. 6,158,884 (Lebby et al.) and further in view of U.S. Patent No. 6,801,476 (Gilmour); claim 5 was rejected under 35 U.S.C. Section 103(a) as being unpatentable over Blonder et al. in view of Gilmour; claim 6 was rejected under 35 U.S.C. Section 103(a) as being unpatentable over Blonder et al. in view of Gilmour, as applied in claim 5 and further in view of U.S. 5,634,206 (Reed); claim 7 was rejected under 35 U.S.C. Section 103(a) as being unpatentable over Blonder et al. in view of Gilmour, as applied in claim 5 and further in view of Lebby et al.; claims 1 and 2 were allowed; and claims 8-10 were objected to as being dependent upon a rejected base claim, but indicated as allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Claim Objections***

Claim 1 has been objected to due to informalities. In particular, as suggested in the outstanding Office Action, claim 1 has been amended to recite:

wherein the plurality of antennas established in the equipment body section are embedded in at least one of top and bottom positions pinching the dial plate and right and left positions pinching the dial plate.

It is respectfully submitted that the amendment raises no question of new matter and it is requested that the outstanding claim objection be withdrawn.

***Allowable Subject Matter***

First, applicants wish to thank Examiner Dean for the early indication of allowable subject matter. In particular, claims 1 and 2 were indicated as allowable; and claims 8-10 were objected to as being dependent upon a rejected base claim, but indicated as allowable if rewritten in independent form, including all of the limitations of the base claim and any intervening claims. To that end, claim 1 has been amended, as indicated above, to remove the outstanding claim objection. Further, the allowable limitations of claims 8-10 have been incorporated into base claim 5, upon which claims 6 and 7 depend; and claims 3-4 and 8-10 have been canceled without prejudice. Therefore, it is respectfully submitted that claims 1, 2, 5, 6 and 7 are now all allowable.

***Conclusions***

In view of the above, the application now contains claims 1, 2, 5, 6 and 7 which are allowable. Therefore, allowance of the application is respectfully requested. In the event the Examiner believes an interview might serve in any way to advance the prosecution of this application, the undersigned is available at the telephone number noted below.
